PROFILE

Master's student in Global Software Development, specializing in scalable, full-stack application engineering. Proficient across the stack with Python, TypeScript, and Java, building modern, performance-driven user interfaces using React, Next.js, and Tailwind CSS. Experienced in backend development with Node.js and data management with MySQL. I' possess essential DevOps skills, including hands-on experience with Docker, Kubernetes, AWS, and Terraform for continuous, cloud-native deployments. Highly adaptable and eager to contribute effectively in international and agile environments.

SKILLS

Java	NodeJS/MySQL
React/Next/ThreeJS	AWS/Terraform
TypeScript	Python
Tailwind CSS	Git
Kubernetes/Docker	

EDUCATION

Oct 2023 — Present	Msc.Global Software Development, Hochschule Fulda	Fulda
Sept 2019 — Jul 2022	Bachelors in Computer Applications, Sirifort Institute of Management Studies	New Delhi

---

INTERNSHIPS

Aug 2021 — Aug 2022 Web Development, Uptoskills — New Delhi

Completed a practical, hands-on program focused on frontend technologies such as HTML5, CSS3, JavaScript, and modern frameworks. Gained foundational knowledge in web design principles and responsive development.

Aug 2023 — Sept 2023 Graphic Designing, Stem Academy — New Delhi

Completed a design-focused program covering essential tools and principles of graphic design, including layout, typography, color theory, and the use of industrystandard software for creating visual content.

EMPLOYMENT HISTORY

May 2025 — Oct 2025 CloudComputing Tutor, Hochschule Fulda — Fulda

Assisted my university professor in developing practical exercises for students to understand the basics of cloud computing using Kubernetes and OpenStack.
